We were born
GREEN!

Structural Plastics Corporation has been designing and manufacturing specialty fixtures and display panels made from 100% post-consumer recycled plastic for over thirty years.

Do you have a product category, area, or plan you want to improve? The SPC Retail™ design team can help you get the most out of your retail space, indoors or out, with our strategic design services.

Nesting Tables

Thank You!

Our SPC Retail™ team of merchandising professionals works with a wide range of retailers, designers and manufacturers all around the world. Our extensive experience in retail and our collaborative process helps us identify, design and develop merchandise display solutions that maximize results and increase sales. Combined with our patented “Kit of Parts” system, we have the ability to create thousands of merchandising display solutions to fit most any type of retail product, selling space and application, at a fraction of the cost and time typically required for wood, metal, and glass fixtures. We look forward to earning an opportunity to work for you.
